ments from which a revenue is to be derived
will be charged for at the rate of 10 cents
per line.

Rates for Commercial, Contract and Per-
manent advertisements will be furnished on
application.

The publisher reserves the right to refuse
to insert advertisements of a questionable or
objectionable character.

A liberal commission allowed to parties
willing to act as agents for us. Write for
terms.
FREDERICK BELL,
Editor and Prop.

THURSDAY, JUNE 4, 1896.

A startling misfortune befell the
cities of St. Louis and East St.
Louis last week in the visitation of
a tornado, which killed a number of
people, estimated, according to
present accounts, at between three
and four hundred, and seriously
injured others to the number of
several hundred, in addition to
causing the destruction of prop-
erty to a large amount, which
cannot be very accurately estimated
just at present. Other places in
the country seem to have suffered
from similar though less destructive
visitations. Expressions of sym-
pathy and offers of substantial aid
have been received by the mayor
of St. Louis from the authorities of
a number of cities throughout the
country, and beyond doubt any
appeal from the St. Louis author-
ities would be responded to prompt-
ly and generously, though it seems
unlikely that such an appeal will
be made. The Washington author-
ities have ordered the engineer
officers in the vicinity to render all
the assistance in their power to the
people of the afflicted district, and
Congress has adopted a joint resolu-
tion directing the loan of tents and
such other relief as the Secretary of
War may deem necessary.—Brad-
street's.

The Hon. Hugh John Macdonald
is shortly to speak in Regina. Of
course Regina people of both politi-
cal persuasions will turn out en
masse to hear him. The Hon.
gentleman is spoken of as being
not only fairly eloquent, but also
as one of the most practical men
that the Dominion possesses. These
are the kind of men we want.
These are the kind that the Con-
servative party generally gets hold
of. To deal in glittering generali-
ties, as the Hon. Laurier does, or in
generalities without the glitter, as
the would-be Hon. McInnis does,
is certainly attractive to a few
people and passingly pleasing to
most of us, but the Hon. Hugh
John has inherited to a large ex-
tent the practical nature of his
honored father, and on account of
that the Hon. Hugh John is the
people's Hugh John to-day. We
are glad that the date of his meet-
ing is to be fixed for a time when
the farmers of this district will be
well through with the rush of
spring work, and we would advise
them all not to let this opportunity
pass of coming to hear our present
and future minister of the interior
address them on the questions of
the day. His will certainly be the
largest meeting that has ever been
held in Regina, completely out-
stripping, as it will, the reception
that was given the distinguished
leader of the Liberal party, the
Hon. Laurier. To say that the an-
nouncement of the Hon. Hugh
John's coming fell like a pall upon
Mr. McInnis and his supporters is
merely telling the truth. They
dread his appearance here because,
having seen the effect upon the

country of his masterly speech de-
livered in Winnipeg at the Tupper
reception they know what to ex-
pect, and they will get fully as
much as they expect. Watch for
the date and make every effort to
be present.

The pleasure with which the
local Grits received the news that
W. W. McDonald had retired in
Eastern Assiniboia, revealed the
anxiety in which they live, in
regard to other chances in that
constituency. Of course it was a
Grit canard. We may expect lots
of them from now on. The fact
that they have started them is not
at all surprising to us. The wish
was no doubt further to the thought
in the present instance, for having
knew over the constituency they
sized there was no other chance of
their candidate being elected. The
Conservatives, however, have a
candidate in the field and he is
still distinctly in it with the cer-
tainty of his election increasing
every day. While we have an
absolute certainty in Western
Assiniboia, it is pleasing to know
(if we are to judge by impartial
reports) that Eastern Assiniboia is
just as certain to remain true to its
old allegiance. Why shouldn't it?
If there is a constituency in Canada
that has progressed in wealth and
population under the Conservative
party, that constituency is Eastern
Assiniboia. Settled by the very
best settlers that could be obtained,
who have been encouraged to their
best efforts by our government
during the very best it could do to
further their interests, it is today
one of the finest and best con-
stituencies in Canada. Always a
Conservative stronghold, it is likely
to remain what it has been, not-
withstanding the frantic appeals of
the Grit-Patron combination made
to the people to sever their con-
nection with that which they have
tried and proved satisfactory for
that of which they have already
seen entirely too much.

The trouble with some people is
that they don't recognize that such
a thing as fact exists. That's a
fact. So is this: In 1875 Canadian
farmers received for their
animal products and animals, \$12,-
700,501. In 1894 they received
\$31,868,973. Since 1875 values
have gone down all over the world
by 22 per cent, therefore, on a basis
of 1875 prices, Canadian farmers
received for this class of products,
\$38,904,547; being about \$26,000,-
000 on a basis of prices, or \$19,-
000,000 as an actual fact, more than
they obtained in 1875. Mr. Mc-
Innis says the farmer is poorer now
than then. We seem to think that
the farmers are quite willing to
take that nineteen millions of
dollars extra a year and press for
more. Our farmers have shown
themselves to be very energetic in
that direction, Mr. McInnis not-
withstanding. We would ask
which is the more likely to benefit
the community, a policy under
which such increase as the above
has resulted, or the policy of a man
such as Mr. McInnis, who doesn't
know his own mind twenty four
hours at a time?

Under a "tariff for revenue," to
which Mr. McInnis has pledged
himself, a duty would be levied
upon imports in a manner which
would have for its object only the
raising of a revenue. A soon as
you depart from that object in the
slightest you have a protective or
discriminating tariff. Mr. McInnis
has either to renounce "tariff for
revenue" to which he is pledged, or
then levy a tax upon all the neces-
sities of life. You can't have a
"tariff for revenue" without taxing
agricultural implements; you can't
have a "tariff for revenue" without
taxing lumber; you can't have a
"tariff for revenue" without taxing

tea, sugar, and the one thousand
other things in every day use.
You can and do have a tariff for pro-
tection and have these free or with
a very low duty. You can and do
have a duty which discriminates
in favor of the farmer. Mr. Davin
and the Conservatives believe the
farmer should have almost all he
uses free and at lowest possible
cost. Mr. Davin believes that the
duty on agricultural implements
should be lowered. Mr. McInnis
believes in "tariff for revenue,"
which would increase the duty on
and the cost of all the necessities of
life. He has either to vote for and
work for the increase of duty on
every article now admitted free of
duty or swallow his words and re-
nounce his published platform of
"tariff for revenue only." In either
case he would make a sorry re-
presentative to send to parliament.

What have the Grits ever done
for this country? Have you ever
heard? They opposed the building
of the C.P.R., they blocked the
Hudson Bay railway—they are
opposed to it being built now—read
Joseph Martin in Hansard. They
blocked all the proposed grants to
the Northwest in the last session.
They have voted and spoken against
almost every proposition to invest
money in the Northwest. They
opposed the maintenance of the
police force in anything like ef-
ficient strength. Can you vote for
such a party?

NOTES BY THE WAY.

"There's a child among ye takin' notes,
An' faith he'll prent' em."

Union is strength; and so, I
fancy, it may be stated without
fear of contradiction, is the hetero-
geneous commingling of aliment
taking the form of raw onions, raw
eggs, whiskey and musty dates,
which, it is stated, has lately con-
stituted the delectable dainty dish
forming the matutinal meal of the
war correspondents up the Nile.

He was sitting by the sidewalk,
on it in fact, and in answer to a
question put to him, said he had
taken a glass or two of ale and soon
found himself ailing more than he
bargained for; and, continued he,
with a sorrowful, slow shake of his
bowed, benumbed head, "Never
again." Never a gain, truly.

As exceptionally wet seasons,
such as the present, bring forth
certain forms of vegetation that
otherwise lie dormant, awaiting
favorable conditions to induce them
to come forth, is evidenced by the
appearance of an edible species of
fungi, known by the name of
Morell, and affecting the near neigh-
borhood of sloughs, especially the
north and east sides. This particular
form of edible fungus growth has
not been found growing in this district
I am informed on good authority,
since 1885. Broadly speaking, mush-
rooms, of which family the Morell
is no mean member, is not looked
upon and considered sufficiently as
nourishing food, yet it is without
doubt. In England we have a body of
enthusiasts who make fungology a
special study, and who have an
annual feast, at which they indulge
in the discussion of every known
mushroom, and experimentalize
with new varieties.

A patent has been granted to Mr.
Tom M. Bowers, of Crochet, Texas,
for a subsoil and harrow plow at-
tachment, which is figured, and of
which there is a full letter press
description, in that most interesting
and excellent of scientific pub-
lications, the Scientific American
for May 23, in which it states at
the conclusion of the notice of Mr.
Bowers's clever invention, "the
object of the invention is to secure
the advantages of plowing, sub-
soiling, and harrowing in one
machine, and it is claimed that by
arranging the devices for the latter
work the three operations are
thrown into one, and the draught
upon the plow is but slightly in-
creased as compared with the great
gain in time and labor."

The herding of cattle is sadly too
often attended with harsh treatment
at the hands of those in whose

**Now is the Time

charge the cattle have been placed;
this is a matter that cannot be too
closely watched by the owners.
Kindness, or brutality will show
their respective effects in a marked
degree; marked indeed, as good
treatment, or the whip will fully
testify. Apart from the humane
feelings incumbent upon every man
and boy, I may add, to shew in
respect to all dumb animals, it is
but poor policy from a commercial
point of view, to treat cattle other
than kindly at all times; more es-
pecially is this the case in regard to
milk cows, and those about to
become such.

Under the familiar pseudonym of
"Q," a book having for title
"Wandering Heath," is being pub-
lished by Charles Scribner's Sons,
New York, and the Copp, Clark
Co., Ltd., Toronto. The work is a
collection of stories, sketches and
studies, to which are added some
delightful verse, of the latter of
which a fragrant fragment is the
following:

I know not why the good is made
So soon to fail, but this I know:
"Tis better that the flower should fade
Than that the fruit should never grow.
"Tis better that the golden day
Should sink in night without repine,
Than that no voice should ever say,
"I see the stars above me shine."
"Tis better that the smiling sky
Should fill with tears and weep the rain,
Than that it should perchance lie,
And never rise to bear the grain.
The heart which has been bruised and torn
Loves stronger for its many blows;
The sweetest flower kissed by the moon
Blooms sadder for each need that grows.

Those interested in dairy pro-
ducts, and who, having the well-
doing of the country at heart, is
not? should procure from Reeve
Henley the dairy bulletin recently
issued from the office of the dairy
commissioner, Central Experimental
farm, Ottawa. Although this bul-
letin but barely comprises four
pages of letter press, it is the cream
of the subject of which it treats.

T.S.J.
—The June number of the
Delineator, which is called the
summer number, contains a choice
representation of the reigning modes
and materials, and in addition to a
special article on Wedding Attire
and customs. Mrs. Witherspoon's
Tea-Table Chat is this month es-
pecially interesting. Carolyn Hal-
stead's entertaining description of
the Society of Colonial Dames is
accompanied by portraits of some of
the officers of that order. The
fourth paper by Mary Cadwalader
Jones is fully as interesting as
its predecessors. Mrs. Charles
Sparague Smith tells about Illus-
trating as a Profession for
Women, and "Frances Leeds" con-
tinues her exposition on household
decoration by describing the doing
over of a commonplace parlor into

You Don't Have to Swear Off
says the St. Louis Journal of Agriculture in
an editorial about No-To-Bac, the famous
tobacco habit cure. "We know of many
cases cured by No-To-Bac, one, a prominent
St. Louis architect, smoked and chewed for
twenty years; two boxes cured him so that
even the smell of tobacco makes him sick."
No-To-Bac sold and guaranteed by C. E.
Carlin & Co., 374 St. Paul St., Montreal.

a blue-and-ivory boudoir. Especial-
ly attractive to women is the first
of a series of Talks on Beauty by
Dr. F. J. Levisser, who treats of
the care and treatment of the skin.
Of like practical utility is the third
and last paper on the Care of the
Teeth, by a well known New York
dentist, and Mrs. Buchanan's con-
tribution on Improved Methods of
Household Sanitation. Emma
Haywood's illustrations and de-
scriptions of Ecclesiastical Embroi-
dery and Fancy Stitches, a chapter
on Seasonable Cookery, notices of
new books, and the latest ideas in
Knitting, Lace Making and Crochet-
ing are among the other features of
this number of the Delineator. Ad-
dress communications to the De-
lineator Publishing Co., of Toronto,
Ltd., 33 Richmond St., West, Toron-
to, Ont., or the local agent for the
Butterick pattern. Subscription
price of the Delineator \$1 per year,
or 15c a single copy.

WAGHORN'S GUIDE AT REGINA 5c

QU'APPELLE PROGRESS.

Thursday, June 4, 1896.

THE NEWS OF THE DAY.

CONDENSED FOR BUSY PEOPLE.

Short and Interesting Paragraphs that Treat of Men and Things in a General Way.

Rev. Dr. McIntyre, principal of the Presbyterian Ladies' college, is dying.

Geo. Warner, a Wallaceburg boy, was caught in a swing on the Sydenham river and injured fatally.

Adam Johnson, of Kinloss township, aged 30, was killed recently by being run over by a wagon.

Ely's saw and planing mill at Florida, with a large quantity of lumber was burned the other day.

John Rose, of Simla township, was killed a few days ago on his father's farm by being run over by a land roller.

Thomas Hisslop, barrister, of Toronto, was committed to jail recently for contempt of court in refusing to account for funds in his care.

A Lake Shore fast freight train was recently wrecked by the parting of an air hose. Frank Morris, a tramp, was killed, and six other tramps were seriously wounded.

While on hunting a few nights ago W. L. C. Hamington, brother of Dr. Hamington, was the victim of a gun accident, as the result of which he died.

It is reported here on good authority that a sheet of bank bills to the amount of \$100,000 was stolen from a pay car on the line of the C. P. R. between Quebec and Ottawa.

The liquidators of the Commercial bank, Winnipeg, have obtained leave from the court to pay the creditors of the bank a further dividend of 10 per cent, making 50 per cent, paid up to date.

Pons, the Frenchman who killed his brother-in-law Roseau in Montreal, the result of a family quarrel, was acquitted by a coroner's jury, which held he acted in self-defense. Pons was therefore freed.

Aylmer Featherstone, a lad of 18, was drowned the other morning, boating off Parkdale. The skill upon and Featherstone could not swim. His companion, named Hamblin, clung to the boat and was rescued.

The Canadian Industrial League has offered \$50 in prize for the best paper published in the Dominion for the past year, to be presented at a gathering of people who believe in tariff protection for Canadian industries.

A large party of American capitalists and miners left recently by the Port Arthur, Duluth and Western railway for the vicinity of Gun Flint Lake, where, it is rumored, they have made a very extensive find in nickel ore.

Two longshore men have discovered gold in a creek near Crown Mountain, Burnside Inlet, directly opposite Vancouver, three miles distant. The bed of the creek has been leased and a mining camp has been started on the side of the mountain.

At the fourth annual meeting of the Hackney Horse society, held in Toronto, the following provincial vice-presidents were elected: For the Northwest Territories, Eawlington, of Calgary; for Manitoba, A. F. Moore, of Selkirk; for British Columbia, S. F. Tolmie.

The C. P. R. are extending their premises in the stock yard at Winnipeg to a considerable extent, having hitherto been cramped for space during the busier seasons. The capacity will be raised from a little over 100 to 200 cars daily. The work has already been commenced.

Fire broke out in Melburn and McAllister's four-story mill at Port Huron, a few days ago, and rapidly consumed the entire building and contents. It then spread to the Grand Trunk cars, which had only recently been loaded in the mill. These were destroyed together with all the surrounding stockhouses. The damage will exceed \$100,000.

Constable Hazel, of the Bench, and three others, effected a heroic rescue of ten young men who were capsized from a yacht on the lake at Hamilton. A terrible gale was blowing at the time, and but few boats were out. The rescuers put out in two skiffs, and arrived just in time to take off ten men who were almost exhausted, from clinging to the upturned yacht.

It is generally understood that Dr. Gordon Bell, of Good & Bell, will receive the new position of provincial bacteriologist, created by the local government last session. He will have charge of the new apparatus received from Germany, and will be under control of the provincial health board, but will also lecture on pathology at the Manitoba Medical college.

A letter patent have been issued incorporating Ontario as a village, and the municipal commissioner is making an appropriation of the surplus of assets between the municipality of Etobicoke, which formerly comprised Toronto, and at the village as now incorporated. The municipality of Etobicoke has a surplus of \$10,000, with no indebtedness, which is the best showing made by any of the municipalities in the province.

The trial of Lapointe for the murder of Peter Moore on the streets of Brockville on March 15th last, commenced the other day. Lapointe will be remembered for his killing Moore, wound a number of citizens by shooting and left on the streets, until he was finally shot down himself. Chief Justice Meredith presides. The plea of insanity will be urged on behalf of Lapointe. Lapointe has a frightened and nervous look in his eyes.

Somehow or other a story has been circulated that there is a scarcity of marriageable girls in British Columbia and numerous offers have been received by Mayor Collins of Vancouver, from people desirous of supplying the want. At a recent council meeting a letter was read from W. E. Anderson, of Salt Lake City, offering to bring out a carload of young women if sufficient inducements were offered. It is needless to say the story was started as a practical joke.

The National Council of Women wants the Dominion and Manitoba governments to send doctors to the thirty settled portions of the Northwest, where there are not enough people to support professional practitioners. A better plan would be for the churches which support missionaries in these districts to send men there who are qualified to heal the body as well as the soul. This plan is often followed in the selection of missionaries for work in foreign fields.

At the meeting of the British Columbia Presbyterian synod at Vancouver permission was given to ordain G. Vetter as German missionary at Calgary and to permit A. D. McKinnon and J. Taylor to preach in Cariboo. The presbytery of

Calgary will hereafter be divided into the Edmonton and Calgary presbyteries. The resolution that a lady missionary be appointed for work among the Chinese women and children in Victoria, was approved, as the ground was already covered by the Methodist mission. The next synod will meet in St. Andrew's church, New Westminster.

Mr. Wm. Hamilton Merritt, mining expert, of Toronto recently passed through Winnipeg on the Pacific express, en route for Barkerville, in Cariboo, British Columbia, where he will examine some gold mining properties for an English syndicate. Mr. Merritt stated to a representative of the Free Press that he was informed in Rat Portage that much activity was already evident in prospecting, several parties having been sent out on behalf of British exploration companies. Mr. Merritt spoke very highly of the energy of Mr. Caldwell, who has done so much for the Lake of the Woods district by his development of the "Caldwell" General Wilkinson, chairman of the "E. G. Co." also came in for his share of praise, as the second pioneer miner of the district. Mr. Merritt spent last summer in the Western Ontario gold fields, and he believes that both the Seine river and Lake of the Woods districts have assured future as gold producers. He expects to spend part of the summer in the same districts, on his return from British Columbia.

A KINDLY OFFER.

Miss Fowler of London, England, Offers \$500 Towards a Girl's Home.

A daughter of a former Lord Mayor of London, England, the late Sir R. Fowler, has kindly offered the large sum of \$500 a year for three years to found a home for girls coming to Winnipeg to engage in domestic service. She had herself before a small meeting of clergymen, several laymen, and prominent ladies of Winnipeg. The mayor presided at the meeting and the provincial government representative was represented by Chief Clerk McKellar. The home as proposed by Miss Fowler, the estimates to cost, with a matron, \$1,200 a year, so that there would be \$200 to raise locally from private subscriptions, or from city or provincial funds, or from all these together. It is not expected that the home would have a very large number of girls at any one time, as the girls arriving would very soon find places. Any who might afterwards find herself temporarily without a place would have the right to return to the home until she secured another. Those remaining longer than a stated period would pay a moderate charge for board. The usefulness of such an institution naturally commended itself to all who heard the scheme explained. In addition to her offer of \$500 a year Miss Fowler agreed to personally supervise the institution; and the meeting felt that this removed the great difficulty in the way of the enterprise, at the same time laying the citizens of Winnipeg under a deep debt of gratitude to her for her most generous proposal. It was determined to go on and establish the home, and sub-committees were appointed to make necessary arrangements.

WILL LIKELY BE REDUCED.

Fifteen Years for Rhodes and His Colleagues Instead of Death.

The sentences of the leaders of the Johannesburg reformers, it was announced, will stand over for the present, and in the meanwhile the sentences of fifteen years imprisonment have been substituted for the sentences of death imposed on Col. Rhodes, John H. Hammond, Lionel Phillips and Geo. Farrar. Nine of the other prisoners are discharged; eighteen sentenced to five months' imprisonment, and twenty-two sentenced to three months' imprisonment.

A dispatch has been received from Governor Sir Hercules Robinson relative to the sentences imposed upon the reformers at Pretoria, which says that one portion of the prisoners will be released immediately and another portion in three months, and a fourth portion at the end of one year.

Governor Robinson says that the death sentences imposed upon the four leaders, Colonel Rhodes, John Hays Hammond, Lionel Phillips and George Farrar, have been commuted to fifteen years' imprisonment, adding, however, that the latter is only a matter of form and that the sentence is not likely to be carried out. The further commutation of the leaders' sentence will be discussed next week.

Governor Robinson adds that the five lines in the case of the other prisoners will remain, but the sentence of imprisonment will be suspended if the prisoners give their word of honor not to interfere in future in the politics of the Transvaal.

New Steamship Service.

The asking for tenders by the Canadian government for four fast steamships naturally causes satisfaction, and it is highly probable that the Allan and Britannia lines will submit offers for the service. Since Richard Mills & Co., the great English ship owners, and Harland and Wolff, the renowned Belfast builders, have become large owners in the Dominion lines, their financial importance has wonderfully increased and it would not be surprising if these people became stout competitors to give Canada a service equal to that maintained by the best New York lines. Mr. Richards arrived out by Vancouver, and although now in Portland, it is an open secret he is on this side in connection with the tender line.

Our correspondent also learns the Dominion people have a surprise in store for Canadians when their new steamer "Canada" now building at Belfast, reaches Canada in July. All definite information respecting this boat has been withheld but it is understood the "Canada" will be a 17 knot boat and possess accommodations for 300 saloons with proportionate number of second cabin and steerage passengers.

Notable Cannon Captured.

It has been learned says the New York World, that the three cannons carried by the filibustering steamer *Laurada*, bound for Cuba, were of the kind recently described as being noiseless, smokeless, and operated by secret force, which, in a minute to project enough bullets to slaughter a large part of the Spanish army in Cuba. They are the invention of Joseph E. Perreault, of Montreal. Several European governments sent military experts to Montreal to investigate the new gun. Among them was a young Austrian named Maximilian Jantska, who had been detailed by the triple alliance. The Cuban Junta engaged Jantska, to operate the new ordnance, and he embarked on the *Laurada*. In payment for his services, he received a note from the Junta for \$100,000, payable one month from date and secured by property at Flushing, L. I., owned by a prominent Cuban in New York.

Robert Barr's Downfall.

Mr. Robert Barr, the novelist, the London correspondent of the New York Sun, was removed this week to an asylum for inebriates at Taubkenham under a magistrate's order. The preliminary expenses, \$30, were guaranteed by an old friend, Mr. Alfred Priestman. If the old man leaves well enough alone, he will be required, and it is hoped that Canada will provide a portion of it.

MANITOBA CHEESE.

Superintendent Macdonald's Advice to Factory Proprietors.

The following circular has been issued by Mr. C. C. Macdonald, dairy superintendent, from the Manitoba department of agriculture and immigration.

Dear Sir:—As the cheese season is now about opening up, I desire to offer the following suggestions with a view to assisting the cheese makers of Manitoba to prepare their output of cheese in a proper manner to suit the markets of England and Scotland. From information gained from the best authority in Europe, the requirements of the English and Scotch markets are as follows:—

First. Cheese to be of uniform size and neatly packed, having square edges, and to stand up straight, free from any checks or cracks, close cutting and uniform color. In order to insure the milk used in the cheese to be found very advantageous to weigh the curd when putting it into the hoops. This would ensure a uniform size at least of each day's make. I would strongly advise weighing all the curd for each hoop each day.

Second. The color should be a uniform, pale high, about one ounce of good cheese color per 100 pounds of milk will be sufficient to make the cheese the proper uniform color.

The Manitoba cheese of last year showed a little too much firmness for the European market, the curd in the whey being too firm, and the whey too thick, and the cheese too hard, and the color too dark. Before drawing the whey from the curd well by stirring with the rake before acid development, or after working the curd, draw the whey off, and draw the whey off after the whey is drawn. When the curd is sufficiently firm, known by its squeaking taken between the teeth, or in other words, will roll around like peas, it should be piled up on each side of the vat and kept for 24 hours, and then drawn. When to a temperature between 54 and 56 curd has developed acid enough to make it mellow and a very fetid smell it should be milled.

Selling.—For the month of May use 20 pounds of salt, best brand; in June, use 25 pounds; in July, use 30 pounds; in August, use 35 pounds; in September, use 40 pounds; in October, use 45 pounds; in November, use 50 pounds; in December, use 55 pounds; in January, use 60 pounds; in February, use 65 pounds; in March, use 70 pounds; in April, use 75 pounds; in May, use 80 pounds; in June, use 85 pounds; in July, use 90 pounds; in August, use 95 pounds; in September, use 100 pounds; in October, use 105 pounds; in November, use 110 pounds; in December, use 115 pounds; in January, use 120 pounds; in February, use 125 pounds; in March, use 130 pounds; in April, use 135 pounds; in May, use 140 pounds; in June, use 145 pounds; in July, use 150 pounds; in August, use 155 pounds; in September, use 160 pounds; in October, use 165 pounds; in November, use 170 pounds; in December, use 175 pounds; in January, use 180 pounds; in February, use 185 pounds; in March, use 190 pounds; in April, use 195 pounds; in May, use 200 pounds; in June, use 205 pounds; in July, use 210 pounds; in August, use 215 pounds; in September, use 220 pounds; in October, use 225 pounds; in November, use 230 pounds; in December, use 235 pounds; in January, use 240 pounds; in February, use 245 pounds; in March, use 250 pounds; in April, use 255 pounds; in May, use 260 pounds; in June, use 265 pounds; in July, use 270 pounds; in August, use 275 pounds; in September, use 280 pounds; in October, use 285 pounds; Local and General

Who comes with summer to this earth,
And looks to June her day of birth,
With ring of acute on her hand,
Can her th. wealth and long life command?

A bicycle and tricycle fever seems to have broken out in town.
—Mrs. Lowe, of Touchwood, Mother of Dr. Lowe of Regina, is a guest of Mrs. G. S. Davidson.

The highest reward for bravery given during the present year by the Royal Canadian Humane Society has fallen to the lot of Constable Tinsley.

Earnest Paine lost a valuable mare lately; unflagging efforts were made, for a considerable time, to save her, but all efforts were unavailing, the mare had, at last, to be shot.

Those who have lost cattle or horses will do well to consult the notices enclosed in the glass case lately fixed against the north side of the Immigration building, east of the entrance to the council chamber.

The ship that can make tracks over the briny faster than any other in the world is, it has lately been stated, the French torpedo catcher, Forban, which can steam at the tremendous rate of about 36 miles an hour.

Mr. Patrick Graham was on Saturday night last knocked down by a restive horse, that was attached to a sealer, and sustained a dislocated shoulder. Dr. Cartwright being promptly called in, soon put matters right, and Mr. Graham is going on well.

The new time card on C.P.R. branch lines, C.P.R. and N.W.T. Co's steamship sailings, Rainy River steamship line, and Street Railway summer schedule; also Cricket Association schedule, county changes and electoral divisions map are given in Stovel's Pocket Directory for June.

Mr. Wm. Givin, of Fort Qu'Appelle, met with a serious accident last Friday; he was thrown from his horse, the unfortunate result being several broken ribs and a badly dislocated shoulder. Mr. Givin, who is getting up in years, having nearly reached the age of three score years and ten, was attended by Dr. Hall, Dr. Cartwright also being called to the case; the sufferer is going on favorably.

Through an oversight last week we omitted the names of Mrs. Doolittle and Mr. W. Miller from the report of the Presbyterian concert. The success of the entertainment was largely due to their efforts, and we hasten to do the lady and gentleman justice. Mrs. Doolittle, we believe, was the chief getter up of the tableaux which were so loudly applauded, and in which Mr. Miller rendered such valuable assistance.

Intending settlers will do well to consider the advantages—which are numerous—of the Qu'Appelle district before locating. It has been stated that this favored part of the Northwest is the Ideal Mixed Farming District, and the statement is fully carried out—not only with what the country is believed to be able to do—but what it has already done. Come, while there is a chance, and be among the fortunate ones to prove it.

A great many friends and acquaintances gathered at the depot on Monday night to bid adieu to Rev. S. W. Thompson who left to attend Synod in Toronto and to visit his home in Sunny Brae, Nova Scotia. Since coming to Qu'Appelle Mr. Thompson has been a most earnest worker in the cause of the Master, and his parishioners and friends hope that his trip will give him renewed strength for the work. Mr. Thompson will be absent about two months. Mr. Strachan, a divinity student of Manitoba College, will officiate during his absence.

About eighty per cent of the creamery butter which is sent from Canada to Great Britain is shipped to Avonmouth for Bristol. Arrangements have been made this year for the dispatch from Avonmouth of butter and other perishable food products to other large centres of consumption in Great Britain, such as London, Birmingham and Manchester on through bills of lading. As the export trade in butter from Canada had grown in the direction of Avonmouth and Bristol, it was thought better to give refrigerator service of the latest and

best kind from Montreal to that port rather than to continue the insulated compartments only on steamship lines to several ports, as was done last year.

The giver shall be given;
If thou wouldst walk in light
Make other spirits bright;
Who, seeking for himself alone, ever entered heaven?

—Miss Munn, niece of Mrs. James McEwen, left for Winnipeg on Monday evening.

—Mrs. William Wilson, of Canmore, is visiting her sister, Mrs. Wilson, of Qu'Appelle.

—Messrs. Lee, two Chinamen, who are on their way to Winnipeg from Regina, called on us Wednesday.

—Mr. H. Bray, butcher, has removed his shop to the west side of Main St. to the building lately occupied by W. Campion as a butcher shop.

—Dr. Size, dentist, Regina, will be at the Leland Hotel, Qu'Appelle, for the practice of his profession, June 9 and 10 only. No charge for examining teeth or quoting prices for work required.

The wedding of Miss Connie Boyce, fifth daughter of Mr. J. H. Boyce, Qu'Appelle Station, and Mr. Walter Roe Harvey, was solemnized at the pro-cathedral, Qu'Appelle Station, on Wednesday, June 3rd. The interesting ceremony was conducted by Bishop Burn, assisted by Rev. Mr. Sargent.

The timely rain has fallen, and at the present moment, 6 a.m., Wednesday, is still falling, doing incalculable good to the young crops, enabling them to increase their root growth rapidly and to penetrate to a depth into that moisture so congenial to their well-doing, and thus affording them comparative safety at times when rain may be less abundant.

It appears that a short time ago a story was circulated in the Vancouver district that there was a great scarcity of marriageable girls in British Columbia, and numerous offers have since been received by Mayon Collins, from people desirous of supplying the want. A recent council meeting a letter was read from W. G. Anderson, of Salt Lake City, offering to bring out a car-load of women, if sufficient inducements were offered. Practical jokes take various forms, truly.

The June issue of The Massey magazine, which is, we venture to predict, destined speedily to become the most popular publication in magazine literature, would confirm the fact, if confirmation were wanting, that it is a perfect marvel of excellence and cheapness combined. Such a desirable combination, indeed, as that represented in the publication in question stands alone, it is unique, and the promoters are justly entitled to a bumper measure of thanks from the reading public for placing within their reach such good, sound, healthy food for the mind at a cost within the means of the multitude.

At Yorkton.

Yorkton, June 1.—Mr. McDonald held a very successful meeting here on Saturday evening. Among the speakers were Senator Purley, Mr. Hawkes and Mr. J. T. Moore. Mr. Douglas was also here. Mr. McDonald made a very good impression and no doubt will get a majority here on polling day.

Chickney Chirpings

Chickney, June 4.—Arbor day was observed here as a holiday for the school children. They cleared up the school yard, besides sowing various kinds of tree seeds.

This is one of the wettest springs on record in Chickney, and some of our farmers are beginning to think the reverse of Longfellow's sentiments. He says:

"In the country on every side
Where far and wide,
Like a leopard's tawny and spotted hide,
Stretches the plain,
To the dry grass and the drier grain
How welcome is the rain!"

H. H. Minneman, has started a herd of cattle in this district, along the banks of Pinesand Creek. He is herding for some of our farmers and stock raisers.

Mr. Chas. Moore had a very bad finger lately, owing to a variety of causes. He saw Dr. Elliott, of Wolseley, about it.

Mrs. John Coulthard has had an

acute attack of erysipelas, which lasted for a considerable time. We are pleased to state, however, that she is improving.

Mrs. Snow has been so ill with inflammation that Dr. Hunt's services, from Indian Head, were needed.

Mr. Wm. Dixon is setting up a telephone between some of the rooms in his house.

We understand that the polling place at this district will be at Hill Farm.

Mr. J. R. Smith, late of Wolseley, has started a furniture establishment here.

The 25th May was not observed as a holiday by our school.

Our little winged enemy, the mosquito, is on the war path again.

Footballing.

To the Editor of THE PROGRESS:
Sir—Many people hold that it is wrong to play football or indulge in any other innocent amusement, but, for my part, I do not see what harm there is in it. When a series of concerts for the people was begun in Edinburgh, Dr. Guthrie, of the Scotch Free church, was present to give his countenance and support to the undertaking. He said: "I have come here to lend my countenance, as a minister, to innocent amusement. Remember when I was a boy at college, and that was not yesterday, I used to go to Duddingston Loch on Saturday afternoons, in winter, and there I saw a reverend and grave divine playing at—what do you call it? Curling? My great ancestor, Guthrie, one of those who were martyrs in the old days for Scotland's right and truth, was one of the first curlers in the county of Ayr. He was a first-rate fisher, but I could try him at that. He was a famous fox hunter; I have more respect for my neck than to try that. I have no sympathy, I have no patience, with that sickly, distempered religion that frowns upon innocent amusement. I maintain here—and though all the bigots in the world were here, I would still maintain—that there is nothing in the glorious Gospel antagonistic to human nature. Every creature has its love of amusement. I have come here as a minister for the purpose of giving my sanction to this amusement." Dr. Guthrie's sentiments express my own, and if all the world thought as he does, it would be thereby bettered.

A FOOTBALLER.

Chickney, May 23.

Law Regarding Newspapers.

1. Any person who takes a paper regularly from the post-office, whether in his name or another's, or whether he has subscribed or not, is responsible for payment.
2. If any person orders his paper discontinued he must pay up all arrears, or the publisher may continue to send it until payment is made and then collect the whole amount whether the paper is taken from the office or not.
3. In suits for subscription, the suit may be instituted in the place where the paper is published, although the subscriber may reside hundreds of miles away.
4. The courts have decided that refusing newspapers or periodicals from the post office or removing and leaving them uncollected, or while unpaid, is prima facie evidence of intentional fraud.

The height of gallantry was reached at a ball in Australia. A gentleman found a garter lying on the floor; picking it up, he walked towards a group of ladies not far from the spot and said: "Which of you ladies has lost her waist belt?"

TWO-THIRDS OF ALL OUR DISEASES & AILMENTS ARE CAUSED BY DERANGED NERVE CENTRES AT THE BASE OF THE BRAIN.

LATE discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of THE GREAT SOUTH AMERICAN NERVE TONIC AND STOMACH AND LIVER CURE has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain, and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord will at once cause Paralysis of the body below the injured part; it therefore will be equally well understood how the derangement of the nerve centres will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVE TONIC is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is, indeed, a veritable Nerve Food and WILL RELIEVE IN ONE DAY the varied forms of Nervous Disease and Stomach Troubles.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN E. TRUAX, SAYS:
I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many different kinds of patent medicines, and have been treated by a number of physicians and found no benefit from them. I was recommended to try THE SOUTH AMERICAN NERVE TONIC, obtained a bottle, and I must say I have found very great relief. I have since taken two more bottles, and now feel that I am entirely free from indigestion, and would strongly recommend all my fellow sufferers from the disease, to give SOUTH AMERICAN NERVE TONIC an immediate trial.
I will cure you.
July 16th, 1893.
Walkerton, Ont. (My signature) *Reuben E. Truax*

A MINISTER OF THE GOSSIP SPEAKS.
PETERBORO, Ontario, June 27th, 1893.
To the Proprietor of South American Nerve Tonic.

DEAR SIR,—I have much pleasure in recommending the great South American Nerve Tonic to all who are afflicted as I have been, with nervous prostration and indigestion. I found a very great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from SOUTH AMERICAN NERVE TONIC, and also cheerfully recommends it to her fellow sufferers.
(My signature) *Rev W. S. Barker*

Sick Headache
Is dependent on deranged nerve centres and indigestion. Hence its cure must come through building up the Nervous System and curing the Stomach. SOUTH AMERICAN NERVE TONIC will absolutely cure this dreaded malady and prevent its return.

A SWORN CURE FOR ST. VITUS'S DANCE.

CHAWKINSVILLE, Indiana.
My daughter, twelve years old, had been afflicted for several months with St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not swallow anything but milk; I had to handle her (dreadful task). My dear son and daughter were very surprised. In three days she was out of her nervousness, and finally improved. Four bottles cured her completely. I think the SOUTH AMERICAN NERVE TONIC the greatest remedy ever discovered, and would recommend it to everyone. Mrs. W. T. ENGLISH.
Montgomery County, Ind.
Subscribed and sworn to before me this May 19, 1893.
